## COVID-19 Programs and Activities Update- March 18, 2020

In an effort to ensure the health and safety of the SCOC Community we have taken the following necessary precautions relating to SCOC programs and activities:

- Daily COVID-19 temperature and health screening will be conducted door to door at each suite to monitor for any signs of symptoms or health concerns.
- The SCOC Community including long term care is closed to visitation.
- The Adult Day Program and Seniors Active Living Centre are closed until further notice.
- All large group (10+ people) programs have been postponed until further notice.
- Programs and activities continue to take place in small groups on each floor of the Community.
- Chaplaincy service, both small group as well as individual based services are provided daily.
- Meals continue to be provided on the main floor utilizing both the dining room and tea room to accommodate for congregate dining while maintaining adequate physical space between individuals. Seating plans have been developed accordingly.
- All external food deliveries (meals on wheels, groceries etc.) will be directed to the main reception desk. Front desk staff will ensure it is received by or delivered to the intended SCOC community member.
- Tea Room is available for take-out daily between 10-11am. and 2-3pm.
- Fresh Fruits and/or vegetables from FoodShare Toronto will be made available and distributed to interested residents by our programs and activities team members.
- Coffee/tea cart service will offer daily refreshments to each floor for the SCOC community.

We will continue to monitor and proactively adapt as required in line with Public Health Ontario and Ministry of Health guidelines in order to ensure the health, safety and overall well-being of our entire SCOC community.

We are grateful for your continued understanding and cooperation during these times.
