

# Memo

<b>To:</b>	SCOC Residents, Families and Staff
<b>From:</b>	Mary Hoare CEO
<b>Date:</b>	May 23, 2020
<b>Subject:</b>	COVID-19 Update

I am happy to report that there are **no active cases** in our Long-Term Care and the Independent Living Apartments. To-date there is 1 confirmed case of COVID-19 amongst the staff. The staff member is resting at home in isolation for a minimum of 14 days and will return to work when Public Health determines it appropriate.

Public Health and the Ministry of Health has determined that this new case did not present a danger to Residents and staff at SCOC and therefore has not placed the organization back into outbreak status. We continue to be diligent and screen all Residents twice each day and staff are also screened before their schedule shifts and after.

SCOC continues to ensure that all required infection control protocols and procedures are in place and staff provide care and service using full personal protective equipment to prevent any spread of the virus. I will be outlining what these infection control protocols consist of on Monday so that you are aware of what precautions we are taking and will continue to take for an indefinite period of time. This will be located on our website by entering the COVID-19 portal.

Sincerely

**Mary**  
CEO
